LIFTS

AIGUILLE DU MIDI

For an unforgettable experience, travel up to the world of very high mountains and admire the superb 360° panoramic views over the Swiss, Italian and French Alps: the exceptional is made accessible in roughly 30 minutes.

Discover:

The Mont-Blanc wing: Enjoy a panoramic view over 3 legendary summits (Mont Blanc, Mont Maudit, Mont Blanc du Tacul) whilst keeping nice and warm behind vast glass windows.

Additionally, discover beautiful pictures of mountaineers in action!

The step into the void: Dare enter this glass box and look down at the 1000 m precipice under your feet!

The waiting area: An opportunity to find out about the fascinating human and technical adventure of the building of the lift.

The museum area: Like a temple dedicated to climbers, mountaineers and adventurers, this is the place to gain a better knowledge and understanding of the frightening and awe-inspiring world of high mountains.

The tube: This 32-m long steel gallery allows you to walk right round the central pillar of Aiguille du Midi at an altitude of over 3700 metres.

Every day open according to weather conditions.

MER DE GLACE

Facing Les Drus and Les Grandes Jorasses, discover the famous Mer de Glace glacier in its summer setting.

From Chamonix, a 20-minute ride aboard the Montenvers rack and pinion train will lead you up to the foot of Mer de Glace (1913 m), the longest and largest glacier in France: 7 km long with a surface area of 40 km².

Visitor attractions on site:

The glaciorium: A small museum to learn about the formation, existence and evolution of a glacier through the ages.

The ice-cave: Dug out of the glacier every year, it contains ice sculptures which are a tribute to mountain life in the 19th century.

Warning: Access to the ice-cave is via a gondola followed by a 540-step staircase.

For further information : Compagnie du Mont-Blanc – +33 (0)4 50 53 22 75.

GRANDS MONTETS

The access to the Grands Montets area is possible over the Plan Joran cable car from Argentière.

From the arrival of the cable car, it is possible to hike until “Plateau de Lognan”, then to the view point (“Point de vue”) over the Argentière glacier. **Be careful! The cable car is not suitable for wheel chairs and the trail is very rocky and steep in some places like the part between the arrival of the cable car towards Lognan!**

It is also possible to go across on a little mountain trail, but this might be also difficult on some parts of the trail for older people, children and people who are not used to hike. **It is neither suitable for wheel chairs!**

NO ACCESS UNTIL THE GRANDS MONTETS SUMMIT!
